With such leaders of the organization, without Russia interfering, they are doomed to the end. All these assaults, rallies – it’s just the releasing of steam and energy of the people. Questions to the leaders and to protesters themselves: 1. Why do you act like a herd? You stupidly gather into a crowd, you yell and that’s all. 2. Why don’t you and your leaders hold meetings, at which the commanders of units, battalions, and regiments (100 people, 300 people, 900 people) are elected? 3. Why is there no conscription of volunteers in the unit, but you act like a herd? 4. Why do you play a game using the rules imposed by the enemy? 5. Why do you rush to capture the administration buildings – they don’t decide anything. 6 Why do you submit yourself to the illegitimate authorities, which betrayed you? What the order of work can be: a) you gather activists before the rally. During it you choose sharp speaking, political and military leaders; b) you choose a commander from the security service leaders; c) in units of security there must be chosen people who are skilled with firearms, even it is with hunting rifles. Then they will carry armed security leaders all the day; d) As soon as you have chosen the commanders of regiments, battalions, and units, and immediately at the meeting you start conscription for units; e) you form columns in the units; f) you bring people near the administration to yell, just a crowd. Organisers – 1 or 2 units; g) one of two units storm the TV-radio company live on air will the call to join the uprising, to go to the Regional State Administration and broadcasting company, and announce the people’s Governor, the mayor, and other bodies of power. Corrupt cops arrive there. And at this time the remaining units: h) storm the regional police department, take the armouries, that’s all, arms are taken of! Make the cops swear an oath, dismiss their superiors, enter into the composition of the police department of people’s armed commissars; i) After arming yourself, you clean the city from Right Sector; j) capture military compounds and warehouses using the mass of people under the control of self-defence units. **humiliate the national honour and dignity of the Ukrainian people**, and create a negative image of the Central Ukrainian authorities and Ukrainians, who defend their national idea in the eyes of the Ukrainian and world community, which, given the context of events that took place in Ukraine as a whole for the period of writing, 

can assist the formation of a feeling of hostility to them, the spread of ethnic intolerance and **incite national hatred**. (The form of expression of signs of incitement of ethnic hatred and humiliation of national honor and dignity, is the use in texts of a lexicon with pronounced negative connotations that characterize the Ukrainian state, the Ukrainian nation as a whole, the Central Ukrainian Authorities, the Ukrainian Armed Forces, and volunteer battalions, actions and deeds, and the contraposition of the inhabitants of the South-Eastern regions and the people's liberation army of the South-East (for context, the representatives of illegal armed groups of the self-proclaimed “LPR” and “DPR”), which are characterized by a lexicon with strong positive connotations.
Thus, Timonin E.G. in the aforementioned circumstances committed intentional actions aimed at inciting ethnic hatred, humiliation of national honor and dignity of the Ukrainian people, i.e., an offence under Part 1 of Article 161 of the Criminal Code of Ukraine.

“The south-east is missing the most important thing: determination to burn bridges behind themselves, and to go to the end. With such leaders of the organization, without Russia interfering, they are doomed to the end. All these assaults, rallies – it’s just the releasing of steam and energy of the people. Questions to the leaders and to protesters themselves: 1. Why do you act like a herd? You stupidly gather into a crowd, you yell and that’s all. 2. Why don’t you and your leaders hold meetings, at which the commanders of units, battalions, and regiments (100 people, 300 people, 900 people) are elected? 3. Why is there no conscription of volunteers in the unit, but you act like a herd? 4. Why do you play a game using the rules imposed by the enemy? 5. Why do you rush to capture the administration buildings – they don’t decide anything. 6. Why do you submit yourself to the illegitimate authorities, which betrayed you? What the order of work can be: a) you gather activists before the rally. During it you choose sharp speaking, political and military leaders; b) you choose a commander from the security service leaders; c) in units of security there must be chosen people who are skilled with firearms, even it is with hunting rifles. Then they will carry armed security leaders all the day; d) As soon as you have chosen the commanders of regiments, battalions, and units, and immediately at the meeting you start conscription for units; e) you form columns in the units; f) you bring people near the administration to yell, just a crowd. Organisers – 1 or 2 units; g) one of two units storm the TV-radio company live on air will the call to join the uprising, to go to the Regional State Administration and broadcasting company, and announce the people’s Governor, the mayor, and other bodies of power. Corrupt cops arrive there. And at this time the remaining units: h) storm the regional police department, take the armouries, that’s all, arms are taken off! Make the cops swear an oath, dismiss their superiors, enter into the composition of the police department of people’s armed commissars; i) After arming yourself, you clean the city from Right Sector; j) capture military
compounds and warehouses using the mass of people under the control of self-defence units. Lev Vershinin IMPORTANT!!! TO COPY IMMEDIATELY! IT CAN BE REMOVED! their national idea in the eyes of the Ukrainian and world community, which, given the context of events that took place in Ukraine as a whole for the period of writing, can assist the formation of a feeling of hostility to them, the spread of ethnic intolerance and incite national hatred. (the form of expression of signs of incitement of ethnic hatred and humiliation of national honor and dignity, is the use in texts of a lexicon with pronounced negative connotations that characterize the Ukrainian state, the Ukrainian nation as a whole, the Central Ukrainian Authorities, the Ukrainian Armed Forces, and volunteer battalions, actions and deeds, and the contraposition of the inhabitants of the South-Eastern regions and the people's liberation army of the South-East (for context, the representatives of illegal armed groups of the self-proclaimed “LPR” and “DPR”, which are characterized by a lexicon with strong positive connotations.

thus, timonin e.g. in the aforementioned circumstances committed intentional actions aimed at inciting ethnic hatred, humiliation of national honor and dignity of the Ukrainian people, i.e., an offence under part 1 of article 161 of the criminal code of Ukraine.

in addition, the pre-trial investigation established that in march-april 2014 in the city of Donetsk a stable hierarchical association was created - a terrorist organization, the so-called “Donetsk People's Republic” (hereinafter “DPR”), the participants of which, on the territory of Ukraine, were consciously, purposefully engaged in the commission of terrorist acts, the use of violence by hostage-taking, murder, torture, intimidation of the population and bodies of authorities, attempts on the lives and health of people, the seizure of administrative buildings of State authorities and local self-governance, and other heavy and especially heavy crimes, which leads to the destabilization of the societal and political situation in the state.

the main aim of the activities of the specified terrorist organisation is the violent change and overthrow of the constitutional system, seizure of the state power in Ukraine, and also the change of borders of the territory and the state border of Ukraine, by creating the illegal state formation “DPR”.

the specified terrorist organisation is stable and has a clear hierarchical structure, which consists of political and power blocs, as well as the distribution of functions among the its participants, who are entrusted with relevant responsibilities according to the plan of joint criminal acts.

at the same time the leaders and participants of the power bloc assume provision of the stability of the terrorist organizations by the commission of an armed resistance, combating illegal and obstruction of performance of official duties by law enforcement officials and the Armed Forces of Ukraine. In turn, representatives of the political bloc were organized to collect and receive material and financial assistance from other members of terrorist organizations and individuals, loyal to their activities, and this ensures the existence of the said terrorist organization.

“DPR” has a stable composition of leaders of the said terrorist organizations, which maintain amongst them close relations, subordination of the political parties and the power bloc to the organization leaders, and also, a plan of
criminal activities and clear distribution of roles and rules of behaviour of participants to achieve criminal goals.

Participants of the political bloc of the terrorist organizations, according to the plan of joint criminal action, have the following responsibilities:

- creation of so-called bodies of power “DPR” and the organization of their activities;

- organization of collecting and receiving of material and financial assistance from other members of terrorist organizations and individuals loyal to their activities, as well as its distribution;
- establishment of joint actions with the illegal state formation “Lugansk People’s Republic” and its leaders with the aim of coordinating actions, aimed at overthrowing the constitutional order and seizing power in Ukraine, and also actions aimed at changing the boundaries of the territory and the state border of Ukraine in violation of the order established by the Constitution of Ukraine;
- establishment of joint actions with supporters of criminal activity, which are abroad with the purpose of coordinating actions for financial assistance and weapons, as well as attracting foreign nationals to counter law enforcement bodies and the Armed Forces of Ukraine;
- establishment of joint actions with the local and foreign media with the aim of using them for propaganda, highlighting the activities of the “DPR”, discrediting the activities of state bodies of Ukraine and those involved in the conducting of anti-terrorist operations and the formation of opinion among the population about the legality of their own actions, as well as calls to overthrow the constitutional order and the seizure of state power in Ukraine, and actions aimed at changing the boundaries of the territory and the state border of Ukraine in violation of the order established by the Constitution of Ukraine;
- providing financial and organizational assistance to members of the power bloc of the “DPR” to ensure their illegal activities, organizational, and other assistance for the establishment and functioning of terrorist groups and illegal paramilitary forces and armed formations;
- providing participants of the “DPR” with transport, logos, and promotional materials, and so on.
